Issued September 1, 1942

HERE are presented many new and unusual uses of glass for your home and office . . . uses that beautify, that add new life and color. New glasses and old glasses. New uses and old uses.

These are only suggestions. Your imagination can picture many more places where structural glass, lustrous polished plate glass and lovely polished plate glass mirrors can bring charm and aliveness to your home or office.

Glass and mirrors with their serviceability and beauty are shown here in a myriad of uses . . . with practical information . . . sizes, thicknesses, colors, kinds.

This book has been prepared for YOUR convenience!

# TOPS ★ *Dining room*

PLATE GLASS MIRROR TOP for dining table forms a perfect image of delicate china, silverware, imaginative edibles . . . adds to decorative scheme also.

WANT TABLE TOP LUXURY? Gain it with a polished plate glass top . . . in color if desired. And the cost is less than refinishing the top!

MATCHLESS BEAUTY . . . but matching too. All dining room tops of polished plate glass. Protects the surface, too.

We offer for your selection, furniture tops in the following types of glass, with polished edges:

TYPES OF GLASS

Clear Polished Plate Glass—1/4″, 3/8″ and 1/2″ Thickness.
Colored Polished Plate Glass in Blue and Flesh Tint, or Peach—13/64″ Thickness.
Clear Polished Plate Glass Mirrors with Felt Backs—1/4″ Thickness.
Colored Polished Plate Glass Mirrors in Blue and Flesh Tint, or Peach—13/64″ Thickness.

Structural Glass:
Black—11/32″ Thickness.
White—11/32″ Thickness.
Ivory, Gray and Jade Green—11/32″ Thickness.

Odd and fractional parts of inches are listed at the next higher even inch; thus 21″ x 40-1/2″ will be considered as 22″ x 42″.

The size of irregular shaped glass or glass cut to pattern, will be established by measuring the longest and widest points of the furniture top.

# TOPS ★ *Living room*

TEA TABLE TETE A-TETE . . . a flesh or peach polished plate glass table top adds the final touch.

DON'T MAR THAT DRUM TABLE. Lamp bases or bookends will not scratch it when a plate glass top is used.

SPILLED INK WON'T INJURE. Cover the top of that knee-hole desk with polished plate glass for complete protection. Neat and very attractive.

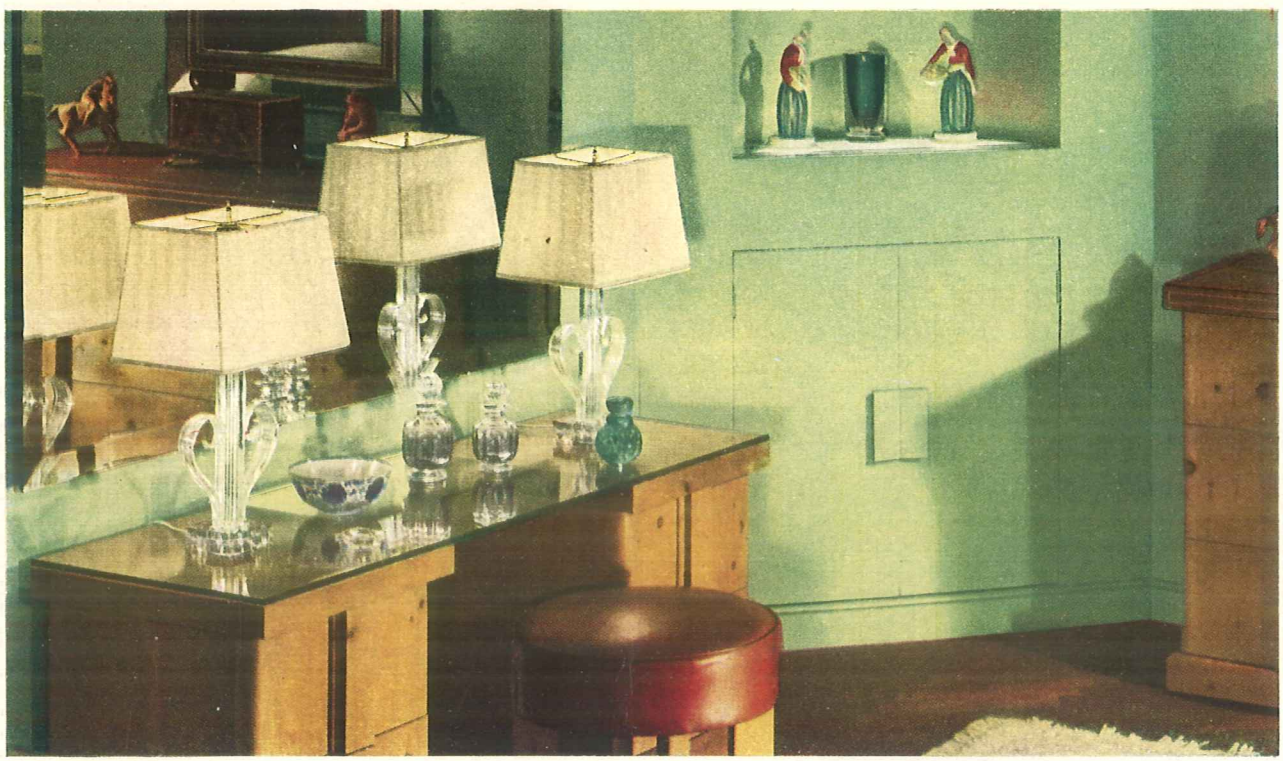

EMPHASIZE THOSE END TABLES . . . Have polished plate glass tops add a certain note of luxury. You'll like it!

# TOPS ★ *Bed room*

DRESSING TABLE DELIGHT . . . Heavy polished plate glass, like this, protects and emphasizes the wood grain. Won't stain.

THE MORE THE MERRIER. Cover the tops of your vanity, dressing table and night stand with polished plate glass. Beautiful, and wise too—for all surfaces are then fully protected. Mirrors, of course, for the background!

DON'T CRY OVER SPILLED MILK . . . no need to, when polished plate glass is used to cover the snack bar. In blue to match the color scheme, if desired.

CONSERVE COASTERS. A plate or structural glass top makes them unnecessary. Cigarettes or cigars won't harm.

LESS WORK AND WORRY . . . when polished plate glass covers your breakfast table. It's best for shelving, too.

INCREASES EFFICIENCY. Plate glass tops for typewriter desks, work tables and filing cabinets save money in the long run. Improves appearance, too.

LUXURIANT, BUT VERY USEFUL. Heavy polished plate glass, like this, gives a hard, perfectly smooth surface. Easy to write on. Never looks shabby.

# MIRRORS ★ *Mantel*

LIKE A LOVELY MANTEL? This mirror hangs just like a picture, but multiplies all the color, life and movement in the room. Inexpensive, easily hung. Attractive.

AS YOU LIKE IT. Many colors, hundreds of sizes to satisfy anyone's taste. Here, three smaller mirrors seem almost like one huge one.

YOU CAN'T GO WRONG with a mirror like this above the mantel. Large or small, a mirror DOES something to your living room.

# ★ WALL AND MANTEL MIRRORS ★

We offer for your selection, mirrors in the following types of glass, edgework and styles:

## TYPES OF GLASS

Clear Polished Plate Glass—1/4″ Thickness.

Colored Polished Plate Glass in Blue and Flesh Tint, or Peach—13/64″ Thickness.

## TYPES OF EDGEWORK

Ground and Polished Edges.

Beveled and Polished Edges.

## STYLE

All mirrors listed herewith are known as venetian type mirrors, however, you will note we offer, mounted on a plywood back with clips or rosettes, mirrors which are to be hung on nails or hangers and can be readily removed; also mirrors without backs which can be fastened permanently in place direct to the wall with toggle bolts or screws and necessary rosettes to fasten on the face of the mirror to hold in place, on either type of fastener.

Odd and fractional parts of inches are listed at the next higher even inch; thus 21″ x 40-1/2″ will be considered as 22″ x 42″.

The size of irregular shaped glass or glass cut to pattern, will be established by measuring the longest and widest points of the mirror.

# MIRRORS ★ *Wall*

FROM DINGY TO DELIGHTFUL through the use of mirrors. Large wall mirrors like these, hung like pictures, give a marvelous lift to your room.

ANY ROOM IN THE HOUSE can use one or more mirrors very effectively. These three do the job of one huge mirror, but cost much less. Very smart.

HERE'S A NICE USE FOR MIRRORS . . . your hall could use one, too. Wallpaper trim serves as a frame. Cabinet is topped with plate glass, of course.

# MIRRORS ★ *Wall*

A TRIPLE MIRROR DOES THE trick. Here, two mirror-covered doors, with a mirror panel between them, gives full length view from all angles.

WALL MIRRORS FOR HEAD Boards add beauty, charm and appeal to any bedroom. They serve equally well for studio couch or built-in bed.

DON'T FORGET THE KITCHEN. Two novel, but very smart, uses. On the door for a quick last look. And over the sink is new and interesting, too.

# MIRRORS ★ *Door*

**FRAMED** SEE YOURSELF as others see you. From the tip of your toes to the top of your head. A framed door mirror will show you just how you look.

**FRAMED** YOU CAN'T BEAT framed door mirrors for beauty, plus utility. Every bedroom should have one. Including the children's, and the guest room.

**UNFRAMED** HOW ABOUT a full-length Door Mirror, without a frame? Here's one mounted on the door with clips. Very neat and practical.

Every woman wants to see herself as others see her—and the best thing for that is a full-length door mirror.

They are inexpensive and available to fit any door. Each bedroom and bathroom should have one. For the convenience of departing guests, a door mirror inside the coat closet in the hall is perfect.

All mirrors shown below supplied ready for installation and can be applied to any closet, bedroom, bathroom or dressing room door quickly and easily. Sizes not shown can be furnished upon application.

## TYPE OF GLASS

Clear Polished Plate Glass—1/4″ Thickness.

## FRAMED DOOR MIRRORS

These mirrors are supplied complete with frames, ready to install, including necessary screws. Frame is of poplar wood, well constructed, supplied in either unfinished or two-tone ivory enamel finish.

## VENETIAN DOOR MIRRORS

Supplied in clear 1/4″ polished plate glass with polished edges and six chromium clips to hold in place on the door. Gives maximum reflection and presents a very distinct, decorative effect.

# Shelves

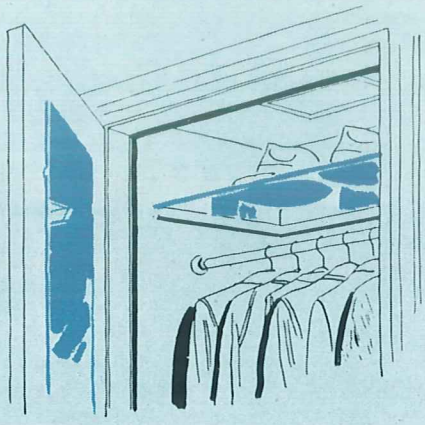

WINDOW conservatories just aren't complete without plate glass shelves. Spilled water can't possibly harm, you know.

LIGHT FOR linen closets passes through plate glass shelves. You can find what you want much easier, and quicker, too.

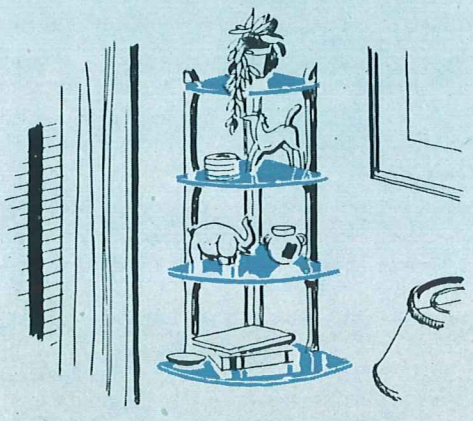

DON'T BLOCK off the light in a window garden. Plate glass shelves let sunshine into your room and help plant growth.

CLOTHES closet shelves of polished plate glass let you see what's on top of them. No more grappling for hidden articles.

STRUCTURAL GLASS shelves in the bathroom give added space for linens and toiletries. And moisture won't stain.

CORNER SHELVES of glass are very easily installed. Decorative and practical, too. You will like their convenience.

We offer for your selection, glass shelves in the following types of glass, with polished edges:

## TYPES OF GLASS

Clear Polished Plate Glass—1/4″, 3/8″, 1/2″ and 3/4″ Thickness.

Structural Glass:

Black—11/32″ Thickness.

White—11/32″ Thickness.

Ivory, Gray and Jade Green—11/32″ Thickness.

Odd and fractional parts of inches are listed at the next higher even inch; thus 21″ x 40-1/2″ will be considered as 22″ x 42″.
The size of irregular shaped glass or glass cut to pattern, will be established by measuring the longest and widest points of the glass.

# Shelves

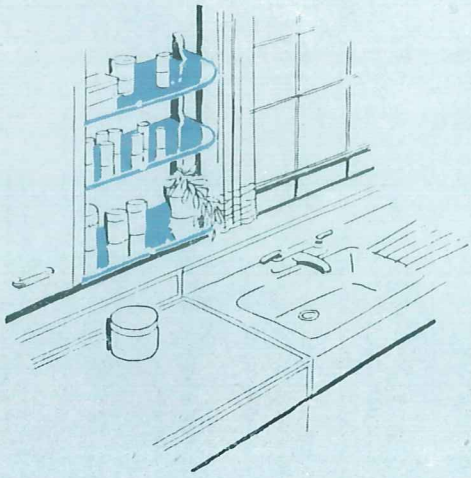

LOVELY background of plate glass shelves and mirrors. Perfect for books, knick-knacks or flowers.

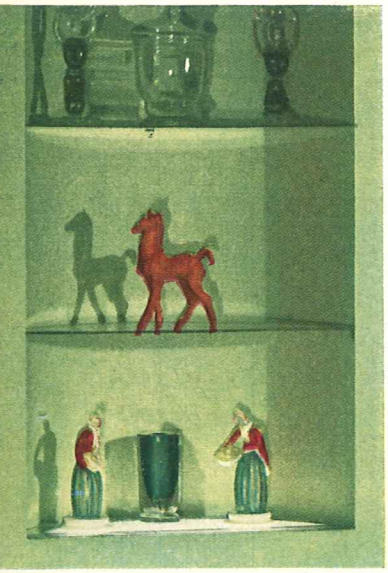

A MUST FOR all medicine cabinets. But the polished plate glass shelf below is equally useful.

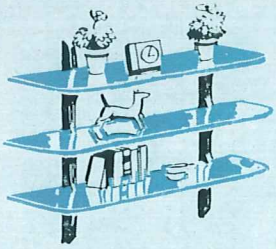

NEVER enough shelves in the kitchen. Add polished plate glass shelves like these. Easy to clean.

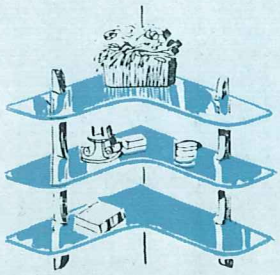

KITCHEN BEAUTY is added by glass shelves like these. Holds knick-knacks or condiments.

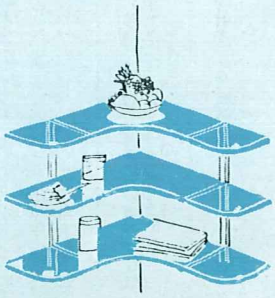

BUILT-IN SHELVES in bedroom or living room are always best of glass. Quite smart and modern.

LONG SHELVES on wooden brackets like these highlight that area. Colorful, but dignified.

THESE CORNER shelves with wooden brackets install very easily. Practical, decorative and attractive.

ANOTHER CORNER shelf treatment might be like this. Innumerable ways to use them.

# Miscellaneous

KICK PLATES, or push plates, of tempered glass aren't harmed by dirty fingers or scuffling feet. Very inexpensive.

DECORATIVE PLAQUES can be used in innumerable combinations—on tables, buffets or servers. Equally useful on piano or library table in the living room. Colorful, decorative, practical.

CATERERS' PLAQUES. Ideal as mixing plaques. From rolling cracker crumbs to frosting cakes, it serves many a purpose in the kitchen. Easily cleaned, absorbs neither odors nor moisture.

# TEMPERED PLATE GLASS PUSH AND KICK PLATES

## TYPE OF GLASS

Tempered Plate Glass—1/4″ Thickness

This type of glass is between four and five times as strong as the plate glass from which it is fabricated. Its strength is derived from the fact that its surfaces are under high compression, induced through rapid heating and instant cooling. When the limit of its mechanical strength is reached it will disrupt into small granular fragments. These particles tend to interlock and to remain in the plane of the glass. In all other characteristics it is identical to plate glass.

## TYPES OF EDGEWORK

Push plates are supplied with beveled and polished edges.

Kick plates are supplied with polished edges.

## GENERAL

Each push plate furnished with two 1/4″ diameter holes and necessary screws for application on door.

Each kick plate furnished with four 1/4″ diameter holes and necessary screws for application on door.

Furnished either clear or sandblasted.

### PUSH PLATES

| SIZE | EACH—PLAIN | EACH—SANDBLASTED |
|---|---|---|
| 3″ x 12″ | $2.52 | $2.72 |

### KICK PLATES

| SIZE | EACH—PLAIN | EACH—SANDBLASTED |
|---|---|---|
| 10″ x 28″ | $10.40 | $10.80 |
| 10″ x 34″ | 12.20 | 12.60 |
| 10″ x 40″ | 14.70 | 15.20 |
| 12″ x 28″ | 11.90 | 12.30 |
| 12″ x 34″ | 14.70 | 15.20 |
| 12″ x 40″ | 16.80 | 17.50 |
| 14″ x 28″ | 14.00 | 14.50 |
| 14″ x 34″ | 16.50 | 17.10 |
| 14″ x 40″ | 19.00 | 19.70 |

# CATERERS' PLAQUES

We offer beautiful white structural glass caterers' plaques for icing cakes, candy making and numerous other uses in the kitchen. Can be used not only in the preparation of foods but also in serving them.

## TYPE OF GLASS

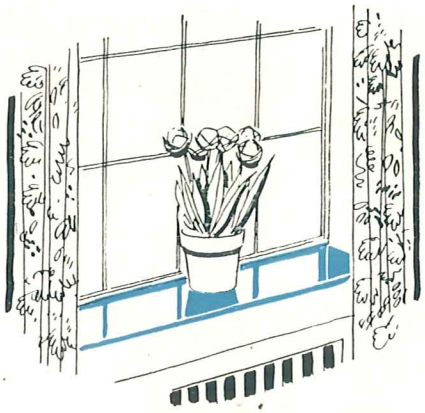

White Structural Glass—11/32″ Thickness with Polished Edges.

Odd and fractional parts of inches are listed at the next higher even inch; thus 13″ x 18½″ will be considered as 14″ x 20″.

The size of irregular shaped glass or glass cut to pattern, will be established by measuring the longest and widest points of the glass.

| CIRCLES | | RECTANGLES | |

| | | 18″ x 22″ | 7.60 |
| | | 18″ x 24″ | 8.16 |

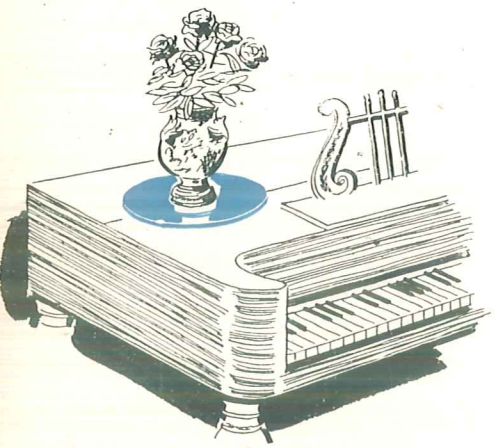

# Miscellaneous

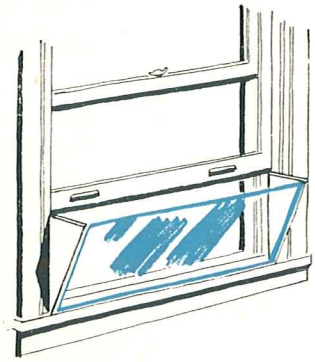

ENTIRE WINDOW SILLS of Structural Glass won't stain or rot. In colors to complement your decorative scheme.

INDIVIDUAL SECTIONS, as at right, serve excellently as flower pot tiles.

PROTECT YOUR WOODWORK AND furniture by using Structural Glass bases for flower pots or vases. Impervious to moisture and highly attractive.

DON'T BE A DRAFT DODGER. A window ventilator of polished plate glass eliminates direct drafts. Prevents rain from driving straight in, too.

MIRROR PLAQUES find innumerable uses. Here, the entire table surface is covered. But equally effective are place mats and center piece of mirrors.

# WINDOW VENTILATORS

Provide ventilation without draft. Used in homes, factories, offices, etc. wherever fresh air is needed without any draft.

### TYPE OF GLASS

For Full Vision—Clear 1/4″ Polished Plate Glass. For Privacy—Obscure, 1/4″ Chipped Surface Plate Glass.

### TYPE OF BRACKETS

Maroon painted metal brackets which can be easily applied to the window frame with screws which are shipped with the brackets.
Per pair ..... $1.50

If metal brackets are not available, we will send free detail of design for a wooden bracket which can be easily made by you of plywood with moulding tacked in place to form a groove to receive the glass and hold it in place.

Odd and fractional parts of inches are listed at the next higher even inch; thus 15″ x 45″ will be considered as 16″ x 46″.

# Instructions

## HOW TO MAKE A PATTERN FOR A GLASS TABLE-TOP

One of the beauties of glass tops is that each one is custom-cut to match the top exactly. To have your glass tops fit perfectly, follow the procedure outlined and illustrated at right.

In the case of larger tables, two or more sheets of paper can be pasted together and the resulting large sheet used for pattern. Or, in the case of rectangular tables having other than square corners, the over-all dimensions of the top, with exact paper pattern of one corner will suffice.

As the supplier of the pattern assumes the risk for any inaccuracies, care should be taken to see that the pattern is correct in every detail.

1 Cover the top of the table with paper. Hold in position and trace around outside edge with a pencil.

2 Remove paper from top and cut along pencilled line. Remember, finished top will match pattern exactly.

3 Lay cut-out pattern on table top as a check for accuracy. This pattern for the glass must fit top perfectly.

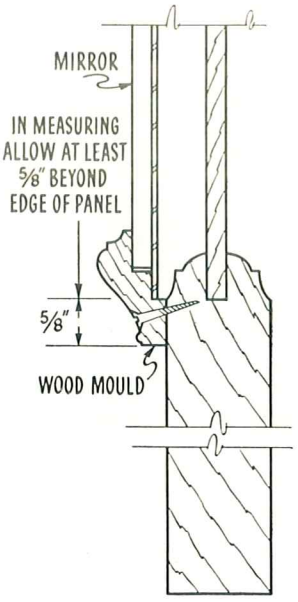

4 Select the kind of glass or mirror desired, as well as the thickness, and supply pattern when ordering.

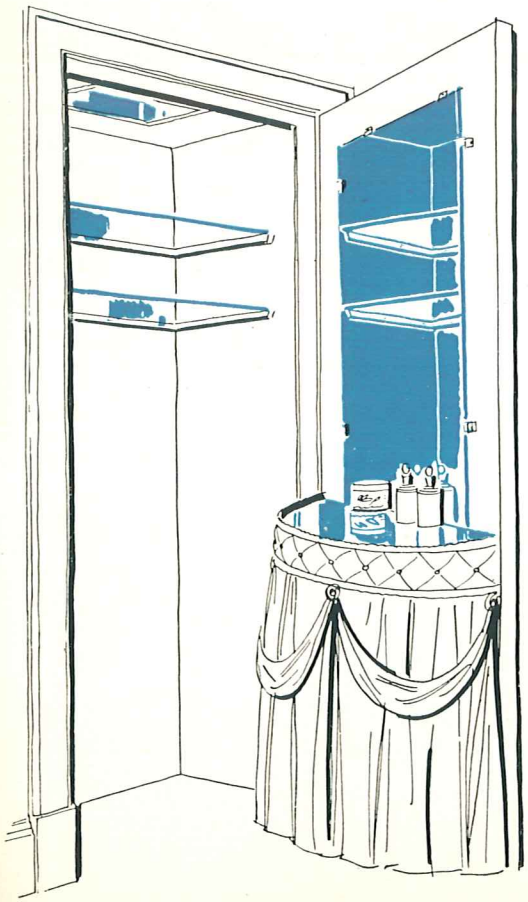

## HOW TO MEASURE AND INSTALL A FULL LENGTH DOOR MIRROR

In measuring for proper mirror size to fit your door, allow room for the mirror to overlap at least 5/8-inch on all four sides beyond the edge of the recessed panel in the door, if any. See drawing. These are minimum requirements. Your door mirror may be as much bigger than this as desired, the only limitation being that the final overall size selected should allow for proper operation of hinges and door hardware.

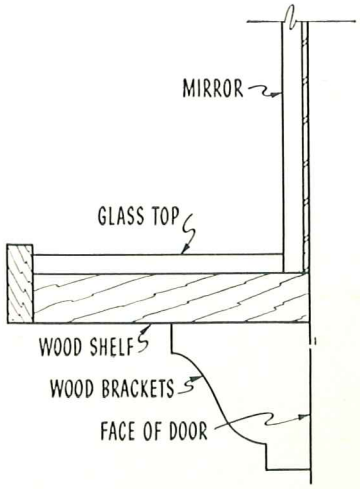

Mirrors are easy to install. First, remove pins from hinges and lay door flat. Set the mirror in place on the face of the door. Fasten by inserting screws in the holes drilled in the moulding. Two screws are required for both the top and bottom and one on each side. A very simple operation which any amateur who has a screw driver can accomplish. After the frame has been screwed to the face of the door re-hang by inserting pins in the hinges.

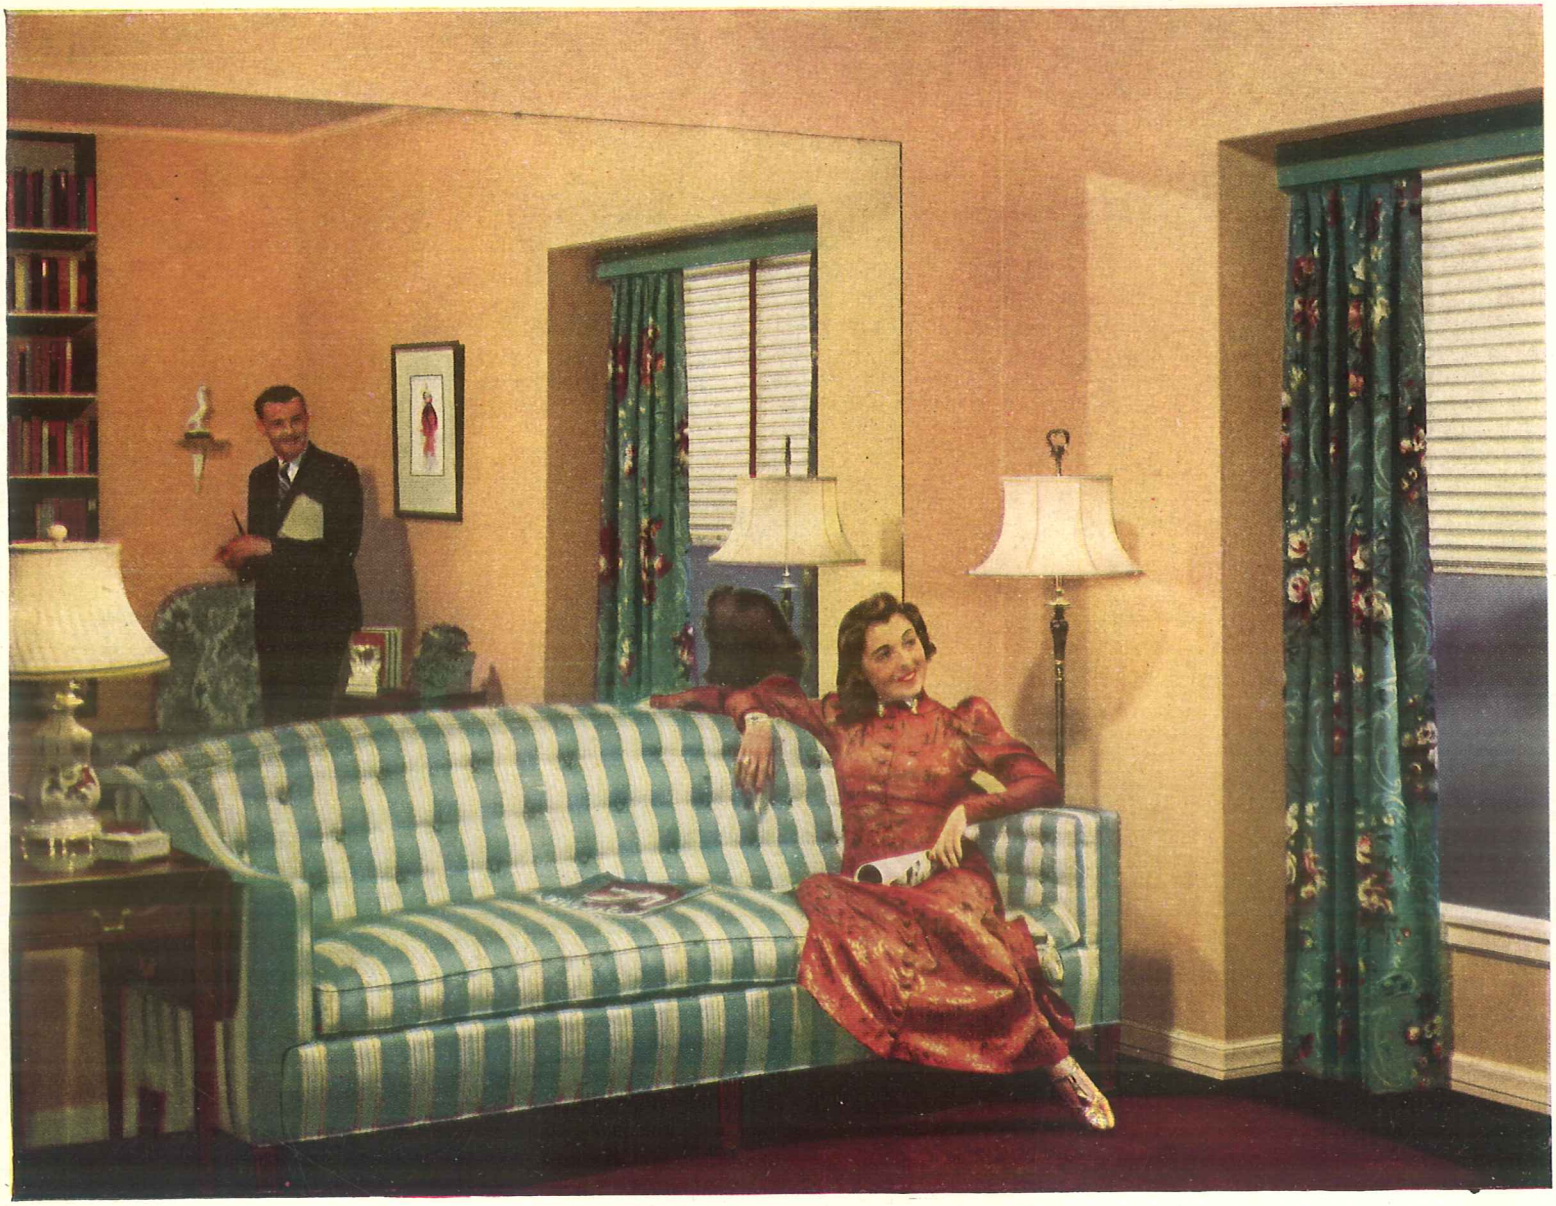

## HOW TO BUILD A DOOR VANITY

TRY THIS IN YOUR CUPBOARD . . . The simple details at the right show how the dressing table can be so easily installed. Naturally the mirror on the inside of the door and the glass shelves complete the picture.
